## **AMENDMENTS TO THE CLAIMS**

Please amend Claims 1, 2, 4, 5 and 6 by deleting the language with a strikethrough (patent) or double brackets "[[]]" ([patent]) and inserting the language which is underlined "\_\_\_\_" (patent).

Please Cancel Claims 1-9.

10. (Amended) [[The]] A personal safety signaling apparatus [[of claim 8]]comprising:

first wireless communication means, said first wireless communication means for

transmitting an emergency radio signal;

an activation means for initiating said first wireless communication means;

a first wireless link for receiving said emergency radio signal, said first wireless link
capable of communicating the presence of said emergency radio signal to a central monitoring
station via a second wireless link;

said central monitoring station capable of determining the location of said first wireless

link via triangulation of said emergency radio signal, said central monitoring station further

capable of alerting an emergency response vehicle via an otherwise conventional alerting

method; and

a wrist watch having ridged said activation means extending linearly above a watch face in parallel alignment therewith and having curved ridge ends defining opposed upper corners of said watch face; and

a pull-clip placed on a side of said watch, said pull-clip pulled to trigger transmission of a remote signal.

11 (New) The personal safety signaling apparatus of claim 10, further comprising:

a microphone, and

a second wireless communication means, said second wireless communication means capable of communicating audible input acquired by said microphone to said first wireless link.

12. (New) The personal safety signaling apparatus of Claim 10, wherein said first wireless link comprises a cellular telephone signal receiving tower.
